

BLAZERS 6mm EN PLUS A1 PELLETS

Blazers En Plus A1 pellets are made from a by product at our saw mill on site. Blazers pellets are clean and can be easily handled without any mess. The pellets are held together by the wood's natural lignin, which is released during the pelletizing process due to the heat and compression.

Blazers En Plus A1 pellets can be used in domestic pellet boilers as well as commercial applications.

Blazers Wood pellets conform to the **EN PLUS QUALITY A1 EN14961-2**

Blazers **EN PLUS CERTIFICATION NUMBER UK003**

Blazers pellets are also **HETAS** quality assured
